

THIS REPORT MAY CONTAIN SENSITIVE INFORMATION

**Brief summary of allegation:** IC became upset during movie time. IC began to choke himself while banging his head on the wall. IC went to his room to calm down. Staff followed for further discussion. IC was in his room and voiced a plan to strangle himself with a hoodie. IC was observed with some erythema to the anterior neck. IC expressed sadness for the behaviors that led to being placed at the facility. Due to continued concerns voiced during the conversation, IC was placed on eyeball safety precaution. This led to further escalation, IC continued to threaten to hurt himself every minute during eyeball safety. IC began banging his head on the wall leading to initiation of a personal restraint to prevent further self-harm.

**List all reported injuries to the child:** IC was observed with some erythema to the anterior neck. Headache after banging head on the wall. No signs of respiratory distress, hoarseness, difficulty swallowing or changes in voice. Headache after banging head on the wall.

**Interim corrective action for this incident if applicable:**
