Incident Description:

Licensing received an email of a report from J. Stangler on Millcreek of Arkansas alleging that her year old IC 1 was admitted at Millcreek last year and discharged in April. It was reported that while at Millcreek there was a lack of medical treatment where the child's Lithium levels were not checked by medical staff. She also reported that that when her child was discharged her belongings were not returned particularly a coat she purchased for her at Christmas. She feels the facility discharged her child wrongfully because she had not met her goals at the time and that Millcreek did not follow up with the child's probation requirements for her diversion program. It was also reported that the child was also not provided hair cuts while at the facility and not provided treatment for severe athlete's foot.
