<b>Review for Gang Activity</b>	Not Applicable

## Primary Narrative By Shawn Vick, 06/15/20 22:56

### Runaway Juvenile

On Monday, 6/15/2020 at approximately 1905hrs, I responded to the Colonel Glenn Youth Home, Hickory House #2, in reference to a runaway juvenile.

Upon arrival I made contact with employee, Tara Brown. Ms. Brown stated the juvenile, later identified as [REDACTED], had returned approximately 10 minutes ago, and was now being very combative and disruptive. I went inside where David Barnes was attempting to calm [REDACTED] down. [REDACTED] was sitting on the floor in front of a window. He was crying, angry, shouting curse words, using racial slurs, and being very uncooperative in language. However, he was not being physical at the time. [REDACTED] banged his head on the window several times. We were able to calm [REDACTED] down enough to talk with him. I asked [REDACTED] if he had ever hurt himself in the past, to which he stated he had. I asked him if he wanted to hurt himself or others now, to which he stated he wanted to do both.

I requested MEMS respond for a mental health evaluation. Medic Tipton and EMT Barrick arrived and determined [REDACTED] would be transported to Children's Hospital. MEMS unit number 607 transported.

Prior to my arrival, [REDACTED] had gotten into an altercation with another resident boy, [REDACTED]. I spoke with [REDACTED] who stated he was riding his bike when [REDACTED] attempted to run him over; that's when the argument began. [REDACTED] said [REDACTED] hit him numerous time with a bike helmet on his face, head, and back. I observed [REDACTED] to have a swollen upper lip, a bruise starting on his back, and several red marks about his back and shoulder. [REDACTED] had already been seen and treated by the resident nurse.

The altercation between [REDACTED] and [REDACTED] is the reason [REDACTED] ran away. [REDACTED] was gone for approximately 20-25 minutes when he returned to the house. When [REDACTED] came inside, he began throwing things, turned over a recliner chair, smashed a remote control, and attempted to throw a water bottle at Ms. Brown's head. [REDACTED] has been with the home since 3/24/2020 and is a ward of the state. [REDACTED] suffers from PTSD, ADHD, DMDD, and intellectual issues; [REDACTED] is on numerous medications to include: chlorpromazine, olanzapine, lithium carbonate, benztropine, cetirizine, desmopressin and melatonin.
