Type of Incident: Emergency Room Visit

Incident Description: ■ stated that he hurt his right thumb when playing flag football. Patient stated that he did not feel any pain in his right thumb until the next day. Patient went to the nurse to get his right thumb assessed. The nurse stated that the patient needed an appointment to make sure that it was not dislocated due to patient complaining about his right thumb being painful to touch. Patient was taken to St. Vincent Urgent Care to have his right thumb x-rayed and evaluated. It was stated that he had a strain and a prescription was called in. The radiologist called later and stated that he had a small chip in his right ligament injury in which they are referring him to Ark. Children's Hospital on Monday for recommendations. The information was sent to the nurses and his mothers were contacted through email with the information. Until his appointment, it was recommended that he not move the injured hand constantly but to let it rest until his appointment.

Agency's Interim Corrective Action: ■ Patient was taken to St. Vincent Urgent Care to have his right thumb x-rayed and evaluated.
