R911.6	No	A/C unit covers were detached in room 105, dayroom 1: B and large dayroom station 2. Please ensure that these are secured back to the walls. Licensing Specialist was made aware that three bedrooms 303, 305, and 307 flooded yesterday with the large amount of rain that occurred. The three rooms filled with rainwater coming from the vents on the A/C units. The residents were taken from the rooms and placed in the dayrooms to sleep last night while the water is being cleaned and dried out today. The rooms still had visible water on the floor and maintenance was actively working on how to prevent this flooding from occurring again.
