**Narrative:**

Licensing visit conducted from 12:30-15:15

Licensing Program Coordinator completed a buildings and grounds walkthrough of the facility. One unit was currently closed due to the sprinkler flooding the unit.

Licensing discussed the progress on the shower pans being replaced on the resident units. The maintenance staff reported that the second bid was placed on the installation of the shower pans today and that he must wait for a third bid to be placed. Once the third bid is placed, then the building owner will pay to have the shower pans repaired. Licensing discussed ensuring that any showers with tile breakage not be used by residents until they can be repaired. Maintenance reported that they will need an additional 30 days for repairs to be made as the original compliance date given for repairs by Licensing was 6/8/2022.
