Date of DCCECE's Follow-up: 3/10/2022 Type of Follow-up: 3/10/2022

Details from Follow-up: 3/10/2022-Licensing Specialist visited the facility and met with the CACD investigator. We interviewed the A/V to determine if he could remember the names or a description of his A/O's. The resident could only remember some minor descriptions

and job titles, but we could not match them to any current employee. Licensing Specialist and CACD investigator interviewed the resident's therapist who reported that the resident often has fantasies of sexual contact with the staff. Therapist described what the A/V had wrote in his diary weeks prior to the accusation and it matched what he reported to the CACD investigator, only he reported to the therapist it was a dream and not an actual occurrence.
