Record Visit Date: 6/2/2022

Home Visit Date: 6/6/2022

Purpose of Visit: Monitor Visit

Regulations Out of Compliance:

Regulations Needing Technical Assistance:

Regulations Not Correctable:

Narrative:

No site visit conducted on this day. Program Coordinator received notification of resident [redacted] allegedly swallowing glass which resulted in the resident being sent to the hospital for further evaluation on 5/18/22. On 5/19/22, the Program Coordinator received an additional notification that resident [redacted] along with a peer swallowed rocks while outside. The Program Coordinator followed up via email with Roni Adams who reported that no glass was found and that the resident did swallow rocks in front of staff and had to be restrained due to this attempt to self-harm. Licensing Specialist Michele Sutton followed up with an in person visit on 5/24/22 and interviewed the residents. The specialist also viewed windows in the outside areas where the resident reported [redacted] finds glass, but no glass was found. The facility reports that they have instructed the maintenance staff to check drainage ditch in playground area daily to ensure no glass has run off from the restaurant next door. They have also contacted the city about the drainage ditch. No licensing concerns noted.
