**Narrative:**

Licensing specialist conducted a follow up targeted buildings/grounds visit to determine if there were any safety hazards/self-harm implements on the blue or green unit or cafeteria. Viewed blue unit. Resident with self-harm behaviors was observed to be 1:1 with and MHP. All light fixtures were observed to be intact. No contraband or other self-harm implements were observed in resident's bedroom. No loose screws were observed in or around unit. Hygiene closet door was observed to no longer have a lock on the inside and can only be opened/closed with a key from the outside.

Green unit--no ratio concerns, resident with self-harm behaviors was observed to be sitting by an MHP in the day room. All light fixtures were observed to be intact; no loose screws were observed in or around unit. No contraband or other self-harm implements were observed in resident's bedroom. There were no plastic bottles/pieces observed in resident's bedroom. No loose screws in window of Room 305.

Cafeteria- Ratio 4:9--Light fixtures observed to be intact. No loose screws or other hazards were observed. All electrical sockets intact.

Grounds- No dangerous materials observed. Small plastic balls were removed by DON to prevent residents from tearing off plastic pieces, but this was not required by licensing.

No citations in areas viewed.
