Report Description: [REDACTED] guardian - [REDACTED]
[REDACTED]. [REDACTED] was struggling with behavioral problems on the unit. She was inserting objects into her vagina and would rub her hand on her vagina and smear the vaginal secretions on staff's face. She in addition was making scratches on her arm. Nurse contacted the physician on call and she was ordered [REDACTED]
[REDACTED] While at WRMC the object was removed and as the staff there were discharging her, [REDACTED] attempted to swallow a piece of metal from her face mask. [REDACTED] staff removed it and she tried to wrap her pants around her neck and verbalized suicidal ideation. WRMC called for security and she was escorted outside by them. Staff requested that she not be discharged until acute placement could be explored. WRMC refused and would not let the resident or staff enter the building. Staff had no choice but attempt to bring her back to the facility. During the transport she was trying to self-harm and was assaultive to staff. Back up staff and nurse arrived and she continued the behavior and physically hurt a staff member. Therefore EMS and Fayetteville Police Department was called and after being informed of her rights and the consequences if she continued to act violent, she calmed down and went to the Arkansas Children's Hospital. She remained there overnight with a staff member. [REDACTED] she was accepted into Rivendell Behavioral Health Services in Benton, Arkansas for acute treatment.
