Report Description: I wanted to notify you of an incident that occurred at The Centers (Destiny House) on 9/07/2022. On 9/03/2022, client [REDACTED] ([REDACTED] DOB: [REDACTED]), reported he had hit his left foot on an unknown object while running. [REDACTED] told Centers medical personnel he injured the second toe on his left foot. Medical staff assessed [REDACTED]'s toe and noted he was moving his toe without grimacing and there was no swelling present. Dr. Bowling was notified concerning this incident. [REDACTED] toe was assessed by Centers medical staff numerous times over the next several days. In each assessment [REDACTED] did not exhibit any signs of swelling or discoloration in the toe. [REDACTED] was observed walking without displaying a limp. On 9/06/2022, [REDACTED] complained to staff his toe was hurting. Centers medical staff assessed his toe and noted a slight amount of swelling in the second toe on his left foot. Dr. Perkins examined [REDACTED]'s toe and noted some deformity in the toe but was unsure if the deformity was from a previous injury. Out of an abundance of caution, Dr. Perkins gave an order for [REDACTED] to be sent out for an x-ray on 9/07/2022. On 9/07/2022, at approximately 1600 hours, Centers staff transported [REDACTED] to The Family Clinic for further evaluation. Once at The Family Clinic, [REDACTED]'s toe was x-rayed, and it was determined he had a fracture in the second toe of his left foot. [REDACTED] toe was wrapped with tape by Family Clinic medical personnel. Dr. Viegao advised [REDACTED] to take Children's Motrin as needed for the pain. After his medical treatment, [REDACTED] was transported back to Destiny House by Centers staff. [REDACTED] will have a follow-up appointment with an orthopedist in the next ten days. Centers medical staff will continue to monitor [REDACTED]. [REDACTED]'s guardian was notified of this incident. [REDACTED] is an Arkansas DHS placement. As always, please do not hesitate to contact me if you need any additional information.
