Report Description: [REDACTED], [REDACTED]. [REDACTED] was transported to Arkansas Children's Hospital on 9/25/2022 due to having a seizure. Around 7:27 a.m. a staff (Icely Marshall) was conducting her fifteen minute checks when she observed client shaking. Icely (staff) called for help, Latasha Thompson (BI) ran down the hall observing [REDACTED] eyes rolling in the back of her head, gurgling on her spit due to laying on her back, and not responsive to her name when the staff were calling her name. Latasha Thompson (BI) rolled [REDACTED] on her side to prevent her from choking and notified Nurse Nathan by utilizing the walkie talkie. [REDACTED] began to come out of the first seizure, she was sweating and stating her throat was dry. The seizure lasted for two minutes. [REDACTED] was crying and emotional stating she was sore. One minute later, [REDACTED] was observed having a second seizure. During the second seizure [REDACTED] displayed a pause in her breathing. Nurse Nathan and Latasha continue to monitor and observe [REDACTED] to ensure she didn't hit her head. The second seizure was less than two minutes, [REDACTED] came out the seizure and appeared to have urinated on herself during the second seizure. [REDACTED] became responsive and was able to speak to staff. Nurse Nathan assessed [REDACTED] and she was transported to the ER by MEMs. [REDACTED] was admitted Arkansas Children's Hospital for observation to see if they could catch her having a seizure. [REDACTED] returned to the facility on 9/26/2022 after 12pm. The doctor spoke with the Stephanie (nurse manager) informing her [REDACTED]
