Licensing Narrative: Licensing Specialist will follow-up with facility. 10/20/2022 Licensing Specialist reviewed camera footage of the 10/16/2022 incident. Licensing Specialist viewed footage from 21:58 to 22:16 timeframe. The areas viewed were the 100 Hall and Station 1 (Nursing Station). Licensing Specialist observed resident playing around with the clippers pretending like he was cutting a staff member's hair. Staff could be seen talking with the resident with his hand out for the clippers. Resident then walked off and entered into different bedrooms with a staff member following behind him. Licensing Specialist could not view what took place in the bedrooms due to no cameras being located in the bedrooms. As the resident and staff member entered and left out of each bedroom that was entered, some residents came out of their bedrooms rubbing their hair. Licensing Specialist saw one resident who appeared to be in shock as though if he may have been sleeping. The resident with the clippers could be seen laughing about his behavior with another resident. Staff member was observed following the resident and appeared to be talking with him. From what Licensing Specialist observed the resident was not left unsupervised during this incident. Licensing Specialist was informed that clippers are provided to the residents who have facial hair for them to trim their faces. No licensing concerns noted.
