Description:

On Friday August 19th 2022 at approximately 1325 hours, dispatch asked if I would give a call to a Madelyn Spence (W/F DOB 12/02/1993), The clinical director / counselor of perimeter of the Ozarks located at 2466 South 48th Street suite B.

Once reaching Spence she advised that on Thursday August 18th 2022 at approximately 1300 hours she was informed that there had been sexual contact between an employee by the name of [REDACTED] and a patient by the name of [REDACTED]

Spence advised that she was informed that there had been sexual contact by another patient therefore putting [REDACTED] on suspension, when she interviewed [REDACTED] and confirmed that it was a real occurrence she called the State Police Hotline but did not have the hotline report numbers with her. She also scheduled an appointment for today and was currently at the child safety center for an interview and rape kit to be conducted with [REDACTED]

The information put in by 624 is all that was given to me by [REDACTED] [REDACTED] advised that they do not have a protocol to call the Police Department to file rape reports other than to call the hotline and child safety center but "had a nagging feeling she needed to call to file a report."

Spence advised that [REDACTED] was in town and can be reached at [REDACTED] I was advised that the [REDACTED] family does want to press charges.

Due to not having the hotline report numbers, any further information on [REDACTED] or [REDACTED] Spence advised that she would call me back after the interview with further information to be added to the report.

Case Report

Detail

Agency: Springdale Police Department
Agency #: AR0720200

Print Date/Time: 01/09/2023 15:47

█████ disclosed that there was a staff member would give her things and they ended up having sexual contact. She advised she told her friends who then told staff and she was brought into the conference room and asked about the incident. █████ advised she initially denied it but then told Latisha everything.

The forensic interviewer asked about the gifts █████ received and she advised that he would let her use his vape and would take her off the unit.

The forensic interviewer asked who the staff member was and █████ advised that it was █████ and his full name was █████

█████ advised █████ would give everyone nicknames and hers was "Snow White".

The forensic interviewer then asked what she meant about the incident occurring three to four days and █████ disclosed that █████ had asked her to help him with hydration where she was not allowed to be but she went and he kissed her.

█████ disclosed that the first incident occurred when the suspect asked her to help him with fill up the water coolers in the kitchen; she advised he kissed her on mouth and slid his hand up her shirt and touched her breasts. She described the room as being really dark and him initially having his cell phone flashlight on but him turning it off. █████ described the place as being in the kitchen where there was "big deep sinks" and a flat area where they put their trays on after eating.

█████ disclosed that on the second incident (the next night) █████ stuck his hands her pants and rubbed her vaginal area and penetrated her vagina with his finger. █████ disclosed he was rubbing all over and everywhere and he "fingered" her. █████ advised that she stepped back away from him (he was standing in front of her) and he stopped. █████ advised she put her hands on his arms and pushed back away from him.

█████ disclosed that on the third incident, █████ had asked her if she wanted to help him do "med pass" and she said "yeah" and he told her they had to fill up hydration. She advised the first time he dumped the water out and put ice and let the water go "really slow". She advised that it happened really fast when he kissed her and turned her around and put his hands down her pants and put his finger into her vagina and then proceeded to pull his pants down and bent her over and penetrated her vagina from the behind with his penis. █████ advised she heard his zipper and he "put it inside" her, the forensic interviewer asked what "it" was and █████ disclosed that "it" was his penis. She advised he grabbed her hair while she was bent over and pulled her head up and her hands were on the railing of the sink and that she could see her shoes and a little bit of his leg. The forensic interviewer asked what made him stopped and she advised that the water was getting full and he stopped and he told her to fix her hair and they went out and she set up the cups.

█████ disclosed that on the fourth incident (same day as the third) that her and █████ took two coolers downstairs to fill up for hydration and "he just turned me around and did it all over again". She advised that "he eventually pulled back and was like get on your knees" and was pushing her head down and she put it in her mouth and he put her hands on it. She advised she got up and he turned her around again and he "did that again". She advised he stopped and turned the water and filled up the hydration up. █████ advised that it hurt and the forensic interviewer asked where it hurt and she said her vagina hurt. She advised that she went back to her unit and "there was blood everywhere" and when the forensic interviewer asked where █████ advised "like on my underwear and shorts" and said "it hurt". █████ advised that at one point she told █████ "that really really hurt" and he said "I'm sorry" and he kissed her on the neck and "started back again". She advised they had sex on August 17th, 2022.

In short, █████ advised █████ turned her around and penetrated her again in the vagina and then told her to get on her knees and penetrated her mouth with his penis. She advised he ejaculated in her mouth before turning her around again and penetrated her vaginally again before ejaculating a small amount in her vaginal cavity. She advised once she was back on the unit she ran cold water over clothes to get the blood off, and that after he came in her mouth she wiped her mouth on her shirt.

Due to █████ who is currently employed at Perimeter Behavioral of The Ozarks (2466 S 48th Street B, Springdale, AR) and is responsible for the care and custody of the juvenile females and being in a position of trust and authority over the victim by being a caretaker of █████ and sexually assaulting her on three separate occasions, I am charging █████ with three counts of Sexual Assault 1st (5-14-124).

Due to █████ touching █████ on her breasts, I am charging him with Harassment (5-71-208).

Due to █████ disclosing █████ allowed her to use his vape on previous occasions. I am charging him with Providing Minor with Tobacco products (5-27-227).

I am also charging █████ with Endangering the Welfare of a Minor 2nd because he knowingly engaged in conduct creating serious harm to the mental welfare of the █████ who is being treated for sexual tendencies and self-harm.

The forensic interviewer asked if █████ if she felt like she had a choice and she said "no" "because he's in the military" and that he was a lot stronger than her and she was in a room by herself and in her mind she felt like he could have taken it. █████ provided multiple sensory details, she advised she could hear water running and could smell cleaning products.

The forensic interviewer then asked if there anyone else had harmed her and she advised that she had a boyfriend and he got me "real messed up one night" "I was like slow down I don't know if I want to do this tonight" and he said "its fine and he just kept going". The forensic interviewer asked how old she was and she advised she was █████ and his name was █████ but wouldn't provide his last name. █████ advised █████ was 18 at the
