Maltreatment Narrative:

Licensing Narrative: 2/1/23- Program Coordinator spoke to the CEO, Cassie Sowder, and discussed why the incident was reported late to the licensing unit per the current Corrective Action Agreement. The CEO reported that a floor nurse quit without notice so the ADON,

who typically reports incidents, had to work the floor and was unable to report the incident in a timely manner. The Program Coordinator informed the CEO that licensing will be issuing a technical assistance for 109.1.f for all six incidents reported to us on 1/31/23 but moving forward any reports that do not meet the requirements of the corrective action agreement will be cited. Inspection # 058831 02/03/23 Licensing specialist completed a buildings and grounds visit this date. Resident was observed within LOS of staff at time of visit. Standing order to cut and trim fingernails as needed. No additional licensing follow up required at this time.
