**Regulations Not Correctable:**

**Narrative:**

Time of Visit: 11:30 am to 12:45 pm

Census: 13

Licensing Specialist reviewed camera footage for a provider reported incident.

Licensing Specialist observed resident going down the steps, ratio 2:1. Resident was observed coming up the stairs and sitting down by the chair lift power box. The power box is located at the top of the stairway attached to the brick wall. Licensing Specialist observed the resident looking at and around the power box. There was a staff member at the top and the bottom of the stairway.

Licensing Specialist observed the resident looking at the power box. Because of the angle of the camera, Licensing Specialist was unable to observe what the resident was doing. Licensing Specialist observed resident pull a cord and attempted to wrap the cord around his neck. Resident was unable to wrap the cord due to the staff member removing the cord before he was able to wrap it around his neck. The staff member at the end of the stairway came to the top to assist the other staff member.

Resident was trying to get the cord back from staff. Licensing Specialist observed resident kicking and swinging at staff. Licensing Specialist observed staff member bending down talking to the resident and the resident getting off the floor. Resident was observed walking down the stairs with the staff member following. Licensing Specialist observed the top and bottom of the stairway. Licensing Specialist did not observe any loose cords.

Ms. Banks, Program Director, and Licensing Specialist discussed the incident. Ms. Banks informed Licensing Specialist that maintenance bolted down the cord the day of the incident.

Licensing Specialist viewed the MAR's:
