Notice of Serious Incident

Date of Incident: 9/25/2022

Date Received by DCCECE: 9/30/2022

Facility Name: Perimeter of the Ozarks

Facility Number: 237

Facility Type: Residential

Incident Type: Dual

Report Description: Email received by PRTF Program Coordinator "You are aware I quit Perimeter on Tuesday. I did so related to a continuing refusal by upper management to report incidents as required by Licensing agencies such as DHS. Specifically, on Sunday evening 9/25/22 approximately 5 pm a resident assaulted a CNA, the CNA then took the resident down to the floor in what appeared to be a very inappropriate restraint. Both Resident and CNA sustained superficial scratches. I was not there when it happened. We (CEO-myself and other members of the team) reviewed the video footage on Monday morning. After doing so, the CEO determined there to be no need to report the incident. I disagreed. I disagreed in person and via email- then I put my concerns in my letter of resignation and left with no notice. I am not a person to leave a position with no notice, but I could no longer continue in a position I felt was making me compromise my values and fight my superiors almost daily. This has been a on-going issue since day 1. I am in no way writing this in retaliation to Perimeter. I have given them 48 hours to decide to report it themselves, perhaps they have, if so great. If not, please consider it reported now and you can choose to follow up as you see fit. This was my final straw with their refusal to do what is right. I am available if you have questions. I no longer have access to ELS to report on the website."

Interim Action Narrative: Licensing Specialist informed that CNA is no longer employed with facility. Also, facility will no longer use Shift Key, an outside contactor.
