Outcome:

Licensing Narrative: 11/17/22- Program Coordinator visited the facility and discussed the elopement. The video footage of the incident was reviewed and showed the resident in the seclusion room after becoming upset on the unit with his peers. The nurses are seen at the nurse's station 1 preparing medications for the residents and other residents/staff are seen in all the unit dayrooms down the hall. The residents are currently having class in the dayrooms because the administration building (where the classroom hall is) is currently having work done on the fire alarms causing all the doors to be unsecured. The resident's caseworker then notified the resident that his family session was cancelled today due to his recent violent behaviors making it unsafe for him to go to the administrative building for his session. The resident becomes upset and goes to the exit door beside the nurse's station, kicks it open and sits outside on the courtyard. Staff monitor the resident outside as he eventually walks to the administrative building where another staff allows him into the building in an attempt to de-escalate him. However, once in the building he resident pushes past staff and walks through the unsecured doors outside and elopes from the property. Staff continue to try to process with him and he returns to the facility on his own within 15 minutes of the elopement. No licensing concerns noted.
