Notice of Serious Incident

Date of Incident: 11/17/2022

Date Received by DCCECE: 11/17/2022

Facility Name: Perimeter of the Ozarks

Facility Number: 237

Facility Type: Residential

Incident Type: Licensing

Report Description: Name: [REDACTED], DOB: [REDACTED], Guardian: [REDACTED]
(AR) Police were called: Yes (resident [REDACTED] made the call) Safety Plan: assault safety plan for 7 days. Yesterday 11/16/2022 around 08:47pm, resident [REDACTED] pushed past staff while they were attempting to close the door to the unit. While on the milieu, resident began yelling and threatening to attack a staff member that she had a verbal disagreement with earlier in the day. Resident was threatening to attack any peer that came off the unit for med pass. She attempted to attack a staff member several times and ended up spitting on the staff member. Resident jumped on top of the nurse's station and began throwing binders and papers. She jumped off the counter and grabbed the phone and dialed 911 stating she "wants to go to jail." Because the call was connected before phone was removed from resident for safety, Springdale Police was dispatched to the facility. Once at the facility, police officers were taken to milieu where they observed resident banging on the window of the door and making several verbal threats to staff/peers. Resident attempted to push past police and was placed in cuffs to maintain safety. She continued to make verbal threats to police and staff. After several minutes, resident was able to calm down and discuss the events that took place with police/staff. Handcuffs were removed by police once resident showed safe behaviors. Minimal redness noted on wrists. No first aid required. Will reassess in the AM. Resident was not arrested or charged with any crime. She will remain at the facility at this time. She took her PM medication and went to her unit where she fell asleep without any further incidents. I will be extending her current assault precaution safety plan for an additional 7 days for spitting at staff and making several verbal threats.

Interim Action Narrative: Minimal redness noted on wrists no first aid required. Resident was reassessed in the AM. She took her PM medication and went to her unit where she fell asleep without any further incidents. Her previous precautions were extended current assault precaution

Maltreatment Narrative:

Outcome:

Licensing Narrative: Licensing Specialist will schedule to review camera footage. On 11/23/2022, Licensing Specialist reviewed camera footage for the 11/17/2022 provider reported incident. It was reported that it was a misunderstanding between a resident and staff member. Licensing Specialist observed the resident standing at the milieu, trying to enter the different units, walking back and forth, and jumping on the counter of the milieu. Staff was present the entire time of this incident, ratio 3:1. Licensing Specialist observed staff sitting at and standing around the milieu. Staff could be seen what appeared to be communicating with the resident. Camera footage could be observed but not heard. At no time did Licensing Specialist observe any staff arguing with the resident. When resident jumped on top of the milieu counter, she was observed throwing paper and grabbing the telephone. It appeared that the resident made a phone call before staff was able to disconnect and take the telephone. Licensing Specialist observed three police officers enter the milieu area. They were observed talking to staff and the resident. Due to the camera angle, Licensing Specialist could not see the resident getting aggressive with the police. However, Licensing Specialist did observe the resident coming from the entrance way to one of the units in handcuffs. Resident was not arrested. DON informed Licensing Specialist that the telephone, papers, nor other items are kept at the milieu. The telephone has been moved to the YCC office and is brought out when residents have telephone time. All papers/notebooks will be kept in the nurse's office. No licensing concerns noted.
