Notice of Serious Incident

Date of Incident: 12/9/2022

Date Received by DCCECE: 12/12/2022

Facility Name: Millcreek of Arkansas PRTF

Facility Number: 233

Facility Type: Residential

Incident Type: Licensing

Report Description: [REDACTED] ([REDACTED]), Custody of Cuyahoga County, DOB: [REDACTED] came into contact with a food containing peanuts. She reported feeling a tingling on her tongue to the nurse. EPI-Pen was administered immediately. She was taken to Dallas County Medical Center ER for assessment. No further treatment was necessary. She was released to return to Millcreek.

Interim Action Narrative:

Maltreatment Narrative:

Outcome:

Licensing Narrative: [REDACTED] ([REDACTED]), Custody of [REDACTED] County, DOB: [REDACTED] came into contact with a food containing peanuts. She reported feeling a tingling on her tongue to the nurse. EPI-Pen was administered immediately. She was taken to Dallas County Medical Center ER for assessment. No further treatment was necessary. She was released to return to Millcreek. Email sent to facility 12/12/22 to inquire if there was a safety plan for client regarding nut allergy. Received email from facility 12/12/22: This was a known allergy by the patient. She has the epi-pen for that purpose. This was a normal

response protocol for her the actions taken. She received the candy that contained peanuts from a staff member. She took a bite of the candy and spit it out, realizing that it contained peanuts. It was not consumed. She complained of irritation to her tongue and throat. She was given Benadryl and her epi-pen. ER follow up is standard procedure. As far as a safety plan, we are ensuring that allergy posting are present on living units and conducting a living unit staff in-service on her allergy. Facility visited 12/16/22. It is reported that staff gave client candy with peanuts, unknowing of client's allergy. In this instance, childcare staff were not informed of the provisions of the safety plan. Facility cited 903.2.
