Narrative:

Licensing visited the facility and discussed case [REDACTED].

Camera review was conducted from 5/22/2023 on the transition hall timed 7:20am-7:35am.

The resident can be seen on camera transitioning from the cafeteria headed to upstairs, when another group of boys is also transitioning from their unit to the cafeteria for breakfast. At 7:20 you can see the resident arguing with a peer and staff when a peer begins to step in and punch the resident very quickly and repeatedly Staff immediately begin removing residents out of the way and get to the resident to remove the aggressor off of the resident. All residents are removed out of the transition hall except for the resident. A staff is with the resident when he begins to spit blood on her body and face. The staff steps onto the hall and looks at the resident from the window as she is on the phone alerting management. The resident appears to find his tooth at 7:28 and holds it to the window to show staff his tooth was knocked out. At 7:33 the nurse walks into the transition hall and begins to assess the resident's injuries.

Licensing spoke to the facility staff supervisor and discussed ensuring the transition of residents one group at a time through the transition hall to avoid large groups of children in that hall at once.
