Regulations Not Correctable:

Narrative:

Visit completed from 11:50AM-1:50PM

Program Coordinator and Specialist Jarred Parnell completed a full buildings and grounds walkthrough of the facility. Bedroom 103 on the blue unit was not viewed as a resident was in the bed resting.

Child/staff ratios were as follows:

3:1 Blue Unit

9: 2 Orange Unit

8:1 Classroom 1

5:4 Classroom 2

Both classrooms were next door to each other, and one staff had gone to the second class, so to return to the correct ratio one staff was immediately asked to leave classroom 2 and rejoin classroom 1. Technical assistance was provided to ensure that staff are aware and maintaining their ratios at all times.

The shower basin in room 305 was seen to be in poor condition with a mildew smelling emitting from it. The licensing staff discussed this with the maintenance staff and regional CEO who reported that they will begin addressing it immediately. Please ensure that the shower basin is repaired by 7/14/2023. Facility cited 911.6.
