Incident Type: Licensing

Report Description: Name: [REDACTED] DOB: [REDACTED] Notification: [REDACTED]
(Mother) At 16:11 I was walking down admin hall to my office and happened to see that the therapist had a resident in her office and needed help. As I walked into her office, the resident started grabbing things off the therapist's desk and therapist was taking the items out of her hands. As I got close the resident grabbed a coffee cup and threw it on the ground. We began to try and escort her out of the office. At this time the resident dropped to the ground and began reaching for items off the floor. She grabbed a piece of the broken coffee cup which I removed out of her hand. During this the coffee cup scratched her right hand in between her thumb and first finger. The resident was removed from the office and placed in a restraint in hallway for safety due to becoming aggressive and continuing to try and grab items off the floor. When the resident was let up from restraint her hand was cleaned and examined, and the patient was returned to the unit.
