Date of Incident: 5/7/2024

Date Received: 5/8/2024

Facility Name: Youth Home, Inc.

Facility Number: 128

Incident Type: Licensing

Report Description: Incident Report for [REDACTED]

[REDACTED] client in our PRTF program and resides in Sturgis House Incident Report date/time: 05/07/24 1:04pm Location of Incident: Siebert School Incident Description: Self Injury(Not Suicidal), Attempted Runaway, Threat to Safety, Property Destruction Staff Involved: [REDACTED]

[REDACTED] Events Leading: Pt. became upset after witnessing a peer elope into woods. Pt. asked for a PRN from the nurse. Before nurses could respond to pt., pt. began picking up desks and throwing them. Pt. then charged at door, pushing through staff. Pt. was placed in hold. 1:04pm: Personal Restraint: Pt. was placed in personal restraint due to throwing desk and running out of classroom. Pt struggled against hold. 1:05pm Personal Restraint End: Pt. was able to get out of staff hold and run toward d zone. Staff attempting verbal support. 1:06pm Other/None: Staff attempted to deescalate pt. while out of hold, encouraging pt to catch his breath. Pt. escalated and threw trashcan, ran out of the d zone, and began punching door, breaking the glass. 1:07pm: Personal Restraint: Pt kicked open the door and preceded to walk away from staff towards the road. While doing so, he began self harming by hitting himself in the head. Pt was encouraged to decompress, slow his breathing, and asked what he needed. 1:09pm: Personal Restraint End: Pt began to calm down and complied with staff and was released out of the restraint and escorted to the D-zone. Patient Debriefing date/time: 05/07/24 1:20pm: Pt was compliant and understood that he could have used his coping skills when he gotten frustrated and angry and was encourage by staff to ask or any help or assistance when those times arise again. Nursing Assessment date/time: 05/07/24 1:13pm: According to staff observations, the patient became upset upon witnessing a peer eloping into the woods and requested a PRN from the nurse. Without delay, the patient began picking up desks and throwing them. Following this, the patient charged at the door, pushing through the staff, necessitating restraint. The patient then kicked open the door and walked away from the staff towards the road. An

initial face-to-face assessment was conducted by a nurse at 1313. Upon examination, no physical markings were noted, and the patient reported no injuries from the restraint, declining medication. Staff informed the nurse that the patient began hitting himself in the head while walking away. Another face-to-face assessment, along with a neuro exam, occurred at 1448, revealing the patient to be conscious, alert, aware, and oriented x4 with a steady gait. Vital signs at this time were BP: 105/72, R21, HR: 85, T: 98.2. The patient denied experiencing numbness, tingling, nausea, vomiting, or lightheadedness at the time, expressing a sense of calmness, and attributing the incident to feeling upset. The medical doctor was promptly notified, and orders: Freeze, HR, RR, and hydroxyzine 25mg PRN BID were approved. At 1452, the patient's mother was informed, indicating that the patient tends to hit himself when upset but typically calms down after finding a quiet area or going outside. The nurse assured the mother that she would relay the strategies that help the patient calm down. Consent for PRN medication was obtained from the patient's mother. All immediate needs were promptly addressed. Guardian was notified on 05/07/24 at 1:54pm and 2:52pm

Interim Action Narrative: Staff placed resident in two separate holds after resident began throwing desks, breaking glass out of a door, kicking a door open, and began walking toward the road. While walking toward the road, resident began hitting himself in the head. Staff followed and encouraged resident to decompress and asked resident what he needed. Resident was able to calm down and comply with staff. He was assessed by the nurse and the medical doctor was promptly notified, and ordered: Freeze, HR, RR, and hydroxyzine 25mg PRN BID were approved. Guardian was notified and gave consent to administer PRN medication.

Census: 43

Licensing received a Provider Reported Incident on 5/8/24 for ELS Case #021123.

Licensing Specialist Norton and Program Coordinator Rice visited the facility to review video footage from 5/7/24 related to the above-referenced ELS case.

According to staff, resident was upset after his girlfriend eloped in the woods on the way back from lunch. Staff reported that the resident and his girlfriend were both upset because they were redirected for being too close together.

During the video, Resident is observed pacing in the classroom (ratio 2:7). After asking for a PRN medication, he continued to escalate and threw a desk across the room. Staff attempted to clear the classroom, but the resident charged at staff standing in the doorway. Resident was then observed going down the hall and into an empty classroom after being placed in a brief hold. Resident was then observed in an empty classroom as staff attempted to deescalate him. Resident then charged out of the room after throwing a trash can, went down the hall, and began punching a glass door that he eventually shattered.

Resident is then observed going outside, out of camera view. According to staff, resident began punching himself repeatedly in the head. Resident was then able to calm down without further incident.
