Report Description: Resident, [REDACTED], was sent to Forrest City Medical Center by order of APRN for further assessment after his lab results reported some low levels.

Resident returned to the milieu same day at 1717 (5:17 pm cst) with no issues.

Interim Action Narrative:

---

Maltreatment Narrative:

---

Licensing Narrative: 06/04/24 LS White received notification of this incident via email from the agency before it was entered into ELS and initiated inquiry. 06/04/24 Agency's response: Apologies it is now entered into ELS. Perhaps the Nursing note, attached, could further explain the occurrence. All Residents receive lab work upon admission, minimum, and some of his levels were out of range (low). For further evaluation and abundance of cation, he was sent out. None of the indicators were life threatening. I am also tagging our DON [REDACTED] who could further explain it as well. No licensing concerns.
