**Date of Incident:** 3/18/2025

**Date Received:** 3/18/2025

**Facility Name:** Yellow Rock Behavioral Health

**Facility Number:** 203

**Incident Type:** Licensing

**Report Description:** On 03/17/2025 @ 0738 [REDACTED]  
[REDACTED] was allowed in the bathroom on [REDACTED] for about 10 mins. She responded when the first staff knocked on the door, the second time she did the resident did not respond. The staff informed the nurse and the nurse quickly opened the bathroom and observed the resident was on the floor in the shower with her back up against the wall with what appeared to be a pair of leggings/pajama pants tied around her neck. Resident face appeared slightly purple with her eyes closed. The nurse quickly unraveled the leggings/pajama pants from resident's neck using her hands. Once the item was taken from around her neck the nurse watch resident face return back to her normal skin tone and watch her respiration's. The nurse and 2nd staff help resident up off the floor and the nurse did a risk assessment to which she scored high. The nurse process with resident and resident explain that she was done because her peers didn't want to talk to her because she has went back on having self harm behaviors. Resident stated 10/10 emotional pain and resident had an unopened red mark around her neck that was slowly fading away. Once the nurse return resident back to the day room the nurse told resident's therapist what happen and got an order from APRN at 0841 to have the door crack open till she is off precaution along with being RTU X 24 hours. We made referrals to [REDACTED] placements per APRN order at 1022 am. She was accepted on 3/18/25 to [REDACTED] and went there mid morning.
